Global Life Assurance

Mock Life Insurance Policy

Policy ID: MOCK-GLA-001

1. Basic Death Benefit

This fictional policy provides a basic death benefit of 10,000,000 yen to the designated beneficiary if the insured person dies while the policy is active, subject to the policy terms and exclusions.

2. Accidental Death Benefit

The mock Global Life Secure Plan provides an additional 5,000,000 yen accidental death benefit if the insured person dies as a direct result of a qualifying accident while the policy is active. The benefit is subject to policy conditions, exclusions, and claim approval.

3. Waiting Period

A 90-day waiting period applies to death resulting from illness after the policy start date. Accidental death benefits are subject to the separate accident coverage conditions in this fictional policy.

4. Exclusions

The accidental death benefit does not apply when an exclusion specified in the policy applies. Examples in this fictional document include intentional self-harm and death resulting from participation in specified illegal activities. Refer to the complete policy terms for eligibility.

5. Claims Process

The beneficiary must submit a claim form, a death certificate, proof of identity, and any requested accident investigation documents. The insurer reviews the submitted documents before making a decision.

6. Important Notice

This document is entirely fictional and exists only for software development, demonstration, and testing. It is not a real insurance contract or financial advice.
